

KETTERING PARK

INFANT ACADEMY

Year 1

As our children move from Foundation Stage into Key Stage 1, Year 1 staff continue a creative approach to the curriculum. The children learn through accessing learning experiences, English, Maths and a range of themed topic lessons. We aim to encourage the children to build their confidence and increase their independence. We take the children on school trips to enhance their learning and have regular visitors into school.

We do daily phonics sessions following letters and sounds programme using actions for each sound to support the children's learning and application of sounds. Children are listened to read individually at least weekly with the aim of introducing guided reading sessions in the Spring term. Children may be withdrawn from class, 1 to 1 and/or in small groups if necessary to support their learning.
