## Working towards the expected standard

The pupil can:

- read accurately by blending the sounds in words that contain the common graphemes for all 40+ phonemes\*
- read accurately some words of two or more syllables that contain the same graphemephoneme correspondences (GPCs)\*
- · read many common exception words.\*

In a book closely matched to the GPCs as above, the pupil can:

- read aloud many words quickly and accurately without overt sounding and blending
- · sound out many unfamiliar words accurately.

In a familiar book that is read to them, the pupil can:

· answer questions in discussion with the teacher and make simple inferences.

## Working at the expected standard

The pupil can:

- · read accurately most words of two or more syllables
- read most words containing common suffixes\*
- read most common exception words.\*

In age-appropriate<sup>1</sup> books, the pupil can:

- read most words accurately without overt sounding and blending, and sufficiently fluently to allow them to focus on their understanding rather than on decoding individual words<sup>2</sup>
- · sound out most unfamiliar words accurately, without undue hesitation.

In a book that they can already read fluently, the pupil can:

- · check it makes sense to them, correcting any inaccurate reading
- · answer questions and make some inferences
- explain what has happened so far in what they have read.

## Working at greater depth within the expected standard

The pupil can, in a book they are reading independently:

- · make inferences
- make a plausible prediction about what might happen on the basis of what has been read so far
- make links between the book they are reading and other books they have read.
